# A GOOD WATER-CLOSET FOR FIFTEEN SHILLINGS,

PACKED AND SENT FREE TO ANY PART OF ENGLAND.

Twenty years since very few second-rate Houses contained a Water Closet, their COMPLICATION, COST, and LIABILITY to get OUT of REPAIR, prevented their being extensively used.

As new things, apparently good, have upon trial, often caused disappointment, the Patentee of the above Closet thinks it necessary to state, that he has for TWENTY YEARS been practically engaged as a PLUMBER, and for the last seven years has made it his study to simplify and reduce the cost of all articles for sanitary purposes, having invented and obtained Letters Patent for SIXTEEN DIFFERENT ARTICLES, all of which are now extensively used, and references can be given to some of the largest works in England.

THIS EARTHENWARE CLOSET has all the ADVANTAGES of a Pan or Valve Closet, without any of their DISADVANTAGES. The basin is of oval shape, and is so fixed that it CANNOT BE SOILED. IT HAS A WATER-SURFACE OF 15 INCHES DIAMETER, 8 INCHES IN DEPTH. Any improper substance thrown into the basin can be immediately discovered and easily removed. The escape from the basin is 3½ inches diameter, and tapered so to 2 inches at the outlet, rendering stoppage impossible. In action the water flows round on each side, and, meeting in the front, carries everything from the basin and trap. They are made of an imperishable material, displace NO IMPURE AIR. In construction they are so simple, and their drainage so apparent, that all who have seen them in use pronounce them to be the CHEAPEST and MOST SIMPLE Water-closet ever invented. SIX of these Closets were tested at Guy's Hospital, and the result was, that THIRTY-THREE were ordered to be fixed. The Architect engaged for the City of London Militia Barracks has also ordered these Earthenware Water-closets to be used, and between SEVENTY and EIGHTY are now in hand for the new Workhouse. Numerous references can be given to persons who have adopted these Closets to that their merits.

The following are the Prices of the various Qualities:—

| | | |
|---|---|---|
| Brown Stone Ware Basin and Trap, glazed white inside | .. | 12s. each |
| White Stone Ware Basin and Trap | .. | 15s. " |
| Printed Blue and White Basin and Trap | .. | 22s. 6d. " |
| Enamelled, with gilt Ornaments | .. | from 25s. to 30s. " |

Prices of Jennings's Self-closing Steel Cocks and Valves, for supplying the above Closets:—

| | | |
|---|---|---|
| ½ inch | .. | 6s. |
| ¾ inch | .. | 10s. |

Bonk Plate and Ivory Pull, extra, 2s. 6d.

In connection with the foregoing Closets, George Jennings has patented an entirely new method of REGULATING the SUPPLY of WATER to WATER-CLOSETS. This Regulator or Apparatus admits of the Closet being self-acting or otherwise. It is most simple, and cannot get out of order.

## JENNINGS'S INDIA-RUBBER TUBE WATER-CLOSETS.

The Patentee of the above closet will continue to manufacture and sell them as usual for all first-rate houses.

## JENNINGS'S INDIA-RUBBER TUBE COCKS FOR ALL PURPOSES

continue to give the greatest satisfaction. Experience has enabled the Patentee to make this simple invention most perfect under the greatest pressures. The Ball Cocks fill a cistern in half the usual time, and never set fast from corrosion.

## JENNINGS'S SHOP-SHUTTER SHOE

Costs half the price of the unsightly shutter-bar. In New Oxford-street Eighty Fronts are shod and secured by this invention, and they are to be found in every thoroughfare.

For further particulars apply to

GEORGE JENNINGS, GENERAL BRASS-FOUNDER AND ENGINEER,

29, GREAT CHARLOTTE-STREET, BLACKFRIARS-ROAD, LONDON.

# NEW AND IMPROVED CLOSET PANS.

STEPHEN GREEN AND CO.

IMPERIAL POTTERIES, LAMBETH.

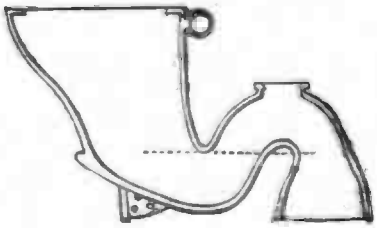
Patent Valve.

These Pans will be found to combine all the latest improvements, with the advantage of having a larger water surface than any other kind of trapped Pan, by which arrangement the sides are kept perfectly clean. The trap is not larger than usual, and has its smallest diameter at the bottom of the Pan, increasing to the end, so that anything passing the neck cannot possibly stop or clog the drain.

Manufactured in superior double-glazed Stoneware, white and smooth inside, at the SAME PRICE AS THE COMMON PAN.

If with Patent Valve, 1s. 6d. extra.

MANUFACTURERS OF THE PATENT SYPHON FLUSHING-BASIN, AND IMPROVED DRAIN PIPES.



## COTTAM AND HALLEN, 2, WINSLEY-STREET, OXFORD-STREET, AND CORNWALL-ROAD, LAMBETH.

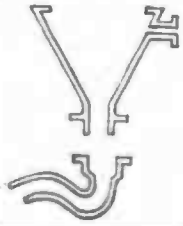
CLOSET PANS IN CAST-IRON,

From 7s. each.

These Pans cannot be broken by servants attempting to cleanse them when stopped up, as is continually the case with those made in earthenware; they are not liable to be choked, and with the Elbow Trap are perfect in preventing the smell.

Can be had PLAIN, GALVANIZED, or ENAMELLED.

A variety of Patterns



TO IRONMONGERS, BUILDERS, AND THE TRADE IN GENERAL.

**LOW PRICE OF CASTINGS.**

| | | | | | |
|---|---|---|---|---|---|
| RAIN-WATER PIPE | 2 in. 7d. | 4d. 1s. 6d. | 3 in. 1s. 9d. | 3½ in. 1s. 10d. | 4 inch 2s. 2d. per yard. |
| EAVES GUTTER, 3 inch | | | | | 8d. per yard. |
| BARN WEIGHTS | | | | | 4l. per ton. |
| ELLIPTIC STOVES, from 5d. per inch. | | | REGISTER STOVES | | 6d. per inch. |
| STOVE METAL | | | | | 8s. per cwt. |
| COTTAGE RANGES from | | | | | 15s. each. |

These Stoves are fitted up in the best manner, and the price they are usually sold at is full thirty-five per cent. higher than now quoted.

A LARGE STOCK of BUILDERS' CASTINGS, consisting of every article usually sold in the trade, at PRICES EQUALLY LOW, the above consisting of Pipe of every description: All Gratings, Bannister and Ball Bars, Panels, Fairy Pans, Ornaments, and Frames, Pan Tile Lights, Furnace Bars.

COTTAM AND HALLEN, 2, WINSLEY-STREET, OXFORD-STREET, AND CORNWALL-ROAD, LAMBETH.

BEETSON'S PATENT VALVE-CLOSET.—

JOHN WARNER and SONS,
Crescent, Jewin-street, London,
Sole Manufacturers.

VALVE-CLOSETS are the best in principle, and the most cleanly and inoderous in action.

This Patent Closet combines the great desiderata, cleanness and durability, and the following advantages:—

The Valve is protected from wear and injury by India-rubber, and cisterns, valves, cranks, and wires, are not required, and only number can be fixed to one supply.

A great variety, and large Stock of
PANS, HOPPERS, SELF-ACTING, and SHIP CLOSETS, &c. always on hand.

JOHN DOULTON, JUN.

ST. HELENS, LANCASHIRE.

The most convenient and efficient system of drainage is formed with

DOULTON'S STONE WARE PIPES.

Testimonials as to their superiority have been received from the Borough Engineers of Liverpool, Glasgow, and other cities.

FIRE-CLAY FLUE PIPES,
TERRA COTTA CHIMNEY TOPS, &c. &c.
WAREHOUSE, 76, SOHO-STREET, LIVERPOOL.

STOCK & SON'S SOIL-PAN SERVICE-BOX.

The object of this contrivance is to facilitate the introduction of sanitary improvements into the dwellings of the working classes, by the adoption of such an arrangement of cheap soil-pan apparatus as will enable the "constant supply system" of water service to be made available for the removal of the refuse, by preventing the enormous waste of water in places of this description, to which water companies not so strongly and so properly object. By the use of this service box an ample supply of water is obtained, without the possibility of its being wasted by propping the valve, weighting the handle, or by other means. It is so constructed that, as long as the discharge-valve remains open, a further supply cannot enter the service box from the mains.—Drawings and description may be obtained from STOCK and SON, Manufacturers of Plumbers' Brasswork, Sanitary Crosses, Rotary Screw-down Taps, Fire Plugs, Gas Fittings, and Church Furniture in iron and brass, Temple-street, Birmingham.

DOULTON AND WATTS'S

REGISTERED CLOSET PANS IN

ENAMELLED STONE WARE,

LAMBETH POTTERY, LONDON.

A

B

These Closet Pans are manufactured in a new kind of stone ware, HIGHLY GLAZED, vitreous, of a light colour, are much improved in form, and are used and recommended by the engineers connected with the General Board of Health.

The Traps are smaller at the inlet, gradually enlarging towards the outlet, as a security against the introduction of improper substances into the drain.

They may also be had turned down.

PRICE 7s. 6d. EACH,

The same as for ordinary stone ware, and may be had fitted with copper fans of the best construction at 1s. 3d. each extra.

HENRY DOULTON and CO.'S DRAIN PIPES in GLAZED STONE WARE.

OFFICES—HIGH-STREET, LAMBETH, LONDON, and Granville-street Wharf, Broad-street, Birmingham.
MANUFACTORIES—HIGH-STREET, LAMBETH, LONDON; BOWLEY REGIS, STAFFORDSHIRE; AND SMETHWICK, NEAR BIRMINGHAM.

May also be had as follows:—

| | | | |
|---|---|---|---|
| BIRMINGHAM | Granville-street Wharf | WOLVERHAMPTON | Mr. R. Shelton. |
| GLOUCESTER | Mr. Jas. Simmons | TAUNTON | Mr. Geo. Pulford. |
| NORTHAMPTON | Messrs. Adams and Greenough. | STRATFORD-ON-AVON | Messrs. J. Cox and Son. |
| WORCESTER | Messrs. Rowland and Son. | JERSEY | Mr. John Le Gros, Charing-cross. |
| COVENTRY | Mr. J. Alcock. | WARWICK | Mr. C. Spence, Saxon Mills Wharf. |
| CHELTENHAM | Mr. J. Bimard. | DERBY | Messrs. Tomlinson and Marpoe. |
| LEAMINGTON | Mr. Chas. Nelson, Warwick-street. | BATH | Mr. Wm. Davey, Broad-walk. |
| LEICESTER | Messrs. J. and W. Jackson. | NORWICH | Mr. J. Barron, King-street. |
| YORK | Mr. M. Terrill Mickleson. | SOUTHAMPTON | Mr. W. Jeremiah, Northam. |

STRAIGHT TUBES WITH SOCKET JOINTS from 1 inch to 24 inches in diameter. BENDS, JUNCTIONS, TRAPS, OF EVERY DESCRIPTION. Drawings, with prices, &c., will be forwarded free on application as above.
